JeniMed360

JeniMed / JeniMed360 – How to delete your account and data.

To delete your JeniMed360 account and associated data please contact the hospital or healthcare provider's office who set up your account and ask them to delete your account and all associated data.

It is up to them to decide which of your historical data they can and will delete. We ask you to assume that are most likely required to keep all historical associated medical data for record keeping purposes.

You can also contact us at support@jenimed.com and if you provide your doctors name and contact details, we will contact them on your behalf and request that they delete your account and data.
